

Bio for Michael A. Bell
R.W. Beck, Inc.

Michael Bell is a Principal and Senior Director of Client Services in the management consulting and engineering firm of R. W. Beck. He manages the Firm's San Diego and Sacramento offices, which specialize in engineering, design, and management consulting services for electric, water, wastewater, and solid waste enterprises.

Mr. Bell has provided expertise in management and technical consulting services to the utility industry for more than 20 years. He has extensive experience in management advisory roles, as well as in the areas of utility financing and rates, and has served as an expert witness in litigation support.

Mr. Bell has been the lead consultant on numerous Energy Feasibility Studies in California, including the City and County of San Francisco, the City of Long Beach, the East Bay Municipal Utility District, and the Port of Oakland. He is currently managing the Annexation Feasibility Study for the Sacramento Municipal Utility District with the Cities of West Sacramento, Davis, and Woodland, and the County of Yolo.

Mr. Bell holds a bachelor's degree in economics from St. Louis University, a master's in business administration from Pepperdine University, and is a graduate of the Program for Senior Executives in State and Local Government at Harvard University.
